

## QUESTIONS & ANSWERS

**Contract Title: "WORKS ON INFRASTRUCTURE IN AGRO-INDUSTRIAL ZONE JASENOVAC AND RECONSTRUCTION OF ACCESS ROAD", Tender reference: IPA 2007/HR/16IPO/001-040215 - JAS 14/12 WKS**

**Beneficiary: MUNICIPALITY OF JASENOVAC**

No	Question	Answer
1	The „Workplan and Programme / Radni plan i program“ (Technical offer 14/12 WKS – 8) begins with a statement that all works, supplies and materials will be implemented according to technical specifications defined by the tender documentation. Is signing this statement enough to fulfil the tender requirements? If not, what is the Tenderer supposed to supply besides the signed statement in the form stated above?	Signing the statement by the person authorised to sign on behalf of the tenderer is all that is required.
2	The „Power of Attorney / Punomoć“ (14/12 WKS – 9-8) has two fields for name and function, one for the party that is being empowered and the other for the party that constitutes and appoints. On the bottom of the form there is a field for signature and stamping by a person or persons authorised to sign on behalf of the tenderer. Who should sign down here, the person being empowered or the person that constitutes and appoints? Where does the other person sign?	At the end of the document Power of Attorney should be signed by a person or persons authorised to sign on behalf of the tenderer (refers to the person that constitutes and appoints). Name and function of the person being empowered just needs to be specified (second blank line in the form).
